Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The amendment filed 7/10/01 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: "wherein the vaccine is not serially passaged through tissue culture" and "[a] non-serially passaged". Applicant states that support for the amendment is found on in example 1 bridging pages 5 and 6. This negative limitation appearing in amended claims 1, 13, and 15, and new claim 19 cannot be found in the original disclosure. The courts have found that any negative limitation or exclusionary proviso must have basis in the original disclosure. The mere absence of a positive recitation is not basis for an exclusion. See *Ex parte Grasselli*, 231 USPQ 393 (Bd. App. 1983), *aff'd mem.*, 738 F.2d 453 (Fed. Cir. 1984).

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Objections

Claims 21 and 22 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The claims fail to further limit claim 20 because the ranges in the claims fall between the range given in the parent claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1648

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 7-13, 15, 16, 18, and 19 are rejected under 35 U.S.C. 102(b) as being anticipated by Wakenell et al. (American Journal of Veterinary Research. 1986. Vol. 47, pages 933-938.) for reasons of record.

Applicant argues that Wakenell et al. does not teach a vaccine which has not been serially passaged. Applicant is arguing new limitations introduced into the claims that are not supported by the original disclosure. Therefore, the rejection is maintained.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-6, 14, 17, 20-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Wakenell et al. for reasons of record.

Applicant argues that the reference teaches away from the claimed invention and quotes a specific passage from the reference as support for the argument and states that the vaccine taught by Wakenell et al. does not teach the same vaccine development.

Applicant did not give a citation so that the quoted passage could be immediately identified and reviewed. For the record, the passage is found in the paragraph bridging pages 934-935. Furthermore, it appears that applicant is not arguing the reasons set forth in the original §103 rejection and is arguing why the reference does not anticipate the invention. However,

Art Unit: 1648

after reviewing the reference, the arguments presented have not been found convincing because the passage quoted by applicant is taken out of context. Maternal-antibody-positive chicks hatching from eggs injected with P₄₀-IBV developed antibodies to IBV and were protected against challenge upon exposure to virulent Massachusetts strain 41 IBV at 4 weeks of age. See the abstract, materials and methods section on pages 933-934. A non-serially passaged vaccine introduced by the amendment is new matter which is not conveyed by the original specification. The rejection is maintained.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Shanon A. Foley whose telephone number is (703) 308-3983. The examiner can normally be reached on 7:30-4:30 M-F.
